

# QuarkNet @ UF

- Providing science teachers the means to develop their skills and **bring real research experience** from the area of particle physics into the science classroom.
- **QuarkNet center at the University of Florida** unites science teachers and university investigators, offering:
  - **Teacher workshops** with paid stipends offering data analysis activities, e-labs, programming, lectures, virtual tours, etc.
  - **International Masterclass program** delivering hands-on workshops to students.
  - **Research Experience for Teachers** program at a National Laboratory.
- QuarkNet is a nonprofit collaboration dedicated to developing America's technological workforce, funded by the **National Science Foundation**.
  - General information about QuarkNet: <https://quarknet.org/>
- **Interested in joining?**
