

Curriculum Vitae

James N. Fry

Department of Physics
University of Florida
Gainesville FL 32611-8440 USA

Phone: (352) 392-6692
FAX: (352) 392-5339
e-mail: fry@phys.ufl.edu

Education:

B.S.	1974	Cornell University	Applied & Engineering Physics (with distinction)
M.A.	1976	Princeton University	Physics
Ph.D.	1979	Princeton University	Physics

Positions:

Astronomy and Astrophysics Center, The University of Chicago, Chicago IL

Robert R. McCormick Postdoctoral Fellow, 1979–1981
Research Associate, 1981–1982
Senior Research Associate, 1982–1983

Department of Physics, University of Florida, Gainesville FL

Assistant Professor of Physics, 1983–1989
Associate Professor of Physics, 1989–1995
Professor of Physics, 1995–
Graduate Coordinator, 1989–1992, 2008–2011
Graduate Council, 1990–1991

Visiting Positions:

Institute of Astronomy, Cambridge University, Cambridge England

Visiting Scholar, March–June 1982

Institute for Theoretical Physics, University of California, Santa Barbara CA

Visiting Assistant Research Scientist, January–June 1984

NASA/Fermilab Astrophysics Center, Fermi National Accelerator Laboratory

Visiting Scientist, September 1992–May 1993

Institut d'Astrophysique de Paris, 98 bis Boulevard Arago, 75014 Paris France

CNRS Poste Rouge, September–December 2002

Research in Paris *Bourse de Recherche*, February–August 2012

Professional Memberships:

American Astronomical Society
American Physical Society
Astronomical Society of the Pacific

Honors:

Named Fellow of the Astrophysics Division of the American Physical Society, 2005

For important contributions to the theory of large-scale cosmological structure, emphasizing nonlinear effects and higher order correlations.

Publications

- “Statistical analysis of catalogs of extragalactic objects. IX. The four-point galaxy correlation function,” J. N. Fry and P. J. E. Peebles, *Astrophys. J.*, 221, 19 (1978).
- “On the description and development of large clusters of galaxies through the cluster-galaxy correlation functions,” Ph.D. thesis, Princeton University (1979, unpublished).
- “Monte Carlo model for the evolution of the galaxy correlation functions,” J. N. Fry and P. J. E. Peebles, *Astrophys. J.*, 236, 343 (1980).
- “Statistical analysis of catalogs of extragalactic objects. XII. The cluster-galaxy-galaxy three-point correlation function,” J. N. Fry and P. J. E. Peebles, *Astrophys. J.*, 238, 785 (1980).
- “Unification, monopoles, and cosmology,” J. N. Fry and D. N. Schramm, *Phys. Rev. Lett.*, 44, 1361 (1980).
- “Evolution of cosmological baryon asymmetries. I. The role of gauge bosons,” J. N. Fry, K. A. Olive, and M. S. Turner, *Phys. Rev. D* 22, 2953 (1980).
- “Evolution of cosmological baryon asymmetries. II. The role of Higgs bosons,” J. N. Fry, K. A. Olive, and M. S. Turner, *Phys. Rev. D* 22, 2977 (1980).
- “Hierarchy of cosmological baryon generation,” J. N. Fry, K. A. Olive, and M. S. Turner, *Phys. Rev. Lett.*, 45, 2074 (1980).
- “Dynamical friction and massive neutrinos,” in *Proceedings of the Neutrino Mass Miniconference at Telemark, Wisconsin*, ed. V. Barger and D. Cline, p. 81 (1980).
- “Gravitational correlations and the monopole problem,” J. N. Fry, *Astrophys. J. Lett.*, 246, L93 (1981).
- “Baryogenesis without the initial presence of superheavy bosons,” M. S. Turner and J. N. Fry, *Phys. Rev. D* 24, 3341 (1981).
- “Note on the redshift-magnitude controversy,” EFI Preprint 81-19 (1981, unpublished).
- “Transform analysis of the high resolution Shane-Wirtanen Catalog,” J. N. Fry and M. Seldner, *Astrophys. J.*, 259, 474 (1982).
- “The four-point function in the BBGKY hierarchy,” J. N. Fry, *Astrophys. J.*, 262 424 (1982).
- “Cosmological Grand Unification Monopoles: Astrophysical Constraints,” in *The Birth of the Universe*, Proceedings of the 1982 Moriond Astrophysics meeting, ed. J. Audouze and J. Tran Thanh Van, p. 125 (1982).
- “Cosmological effects of primeval fermion degeneracy in the Grand Unified Theories” (preprinted as “Alternative Grand Unified Cosmology”), J. N. Fry and C. J. Hogan, *Phys. Rev. Lett.* 49, 1873 (1982).
- “Hierarchy of cosmological baryon generation,” J. N. Fry, K. A. Olive, and M. S. Turner, reprinted in *Unity of Forces in the Universe*, ed. A. Zee (Singapore: World Scientific, 1982), p. 637.

- “Grand Unification and cosmology,” in *The Origin and Evolution of Galaxies*, Proceedings of the 1981 Erice NATO Advanced Study Institute, ed. B. J. T. Jones and J. E. Jones (1983), p. 65.
- “A new evaluation of the four-point galaxy correlation function amplitudes,” J. N. Fry, *Astrophys. J.*, 267, 483 (1983).
- “Baryogenesis and Supersymmetric GUTs,” J. N. Fry and M. S. Turner, *Phys. Lett.* 125B, 379 (1983).
- “Correlation functions in a filamentary clustering prescription,” J. N. Fry, *Astrophys. J. Lett.*, 270, L31 (1983).
- “Galaxy N -point correlation functions: Theoretical amplitudes for arbitrary N ,” J. N. Fry, *Astrophys. J. Lett.*, 277, L5 (1984).
- “The galaxy correlation hierarchy in perturbation theory,” J. N. Fry, *Astrophys. J.*, 279, 499 (1984).
- “Supermassive monopole stars,” J. N. Fry and G. M. Fuller, *Astrophys. J.*, 286, 397 (1984).
- “Cosmological density fluctuations and large-scale structure: From N -point correlation functions to the probability distribution,” J. N. Fry, *Astrophys. J.*, 289, 10 (1985).
- “Statistical comparison of galaxy formation models: The bispectrum,” J. N. Fry and A. L. Melott, *Astrophys. J.*, 292, 395 (1985).
- “QSO metal-line absorbers: The key to large-scale structure?” A. P. S. Croots, A. L. Melott, D. G. York, and J. N. Fry, *Phys. Lett.* 155B, 251 (1985).
- “Statistical measures of density in exotic cosmologies,” J. N. Fry, *Phys. Lett.* 158B, 211 (1985).
- “An independent test of biased galaxy formation with cold particles: The three-point correlation function,” A. L. Melott and J. N. Fry, *Astrophys. J.*, 305, 1 (1986).
- “Statistics of voids in hierarchical universes,” J. N. Fry, *Astrophys. J.*, 306, 358 (1986).
- “On statistical searches for filaments,” J. N. Fry, *Astrophys. J.*, 306, 366 (1986).
- “Nonlinear statistics and biasing,” J. N. Fry, *Astrophys. J. Lett.*, 308, L71 (1986).
- “On the origin of cosmological density fluctuations,” in *Chaotic Phenomena in Astrophysics*, ed. J. R. Buchler and H. Eichhorn, N. Y. Acad. Sci. 497, 66 (1987).

Books (Edited)

Dark Matter, Proceedings of the First IFT Workshop on Dark Matter, ed. R. D. Field, J. Fry, P. Ramond, and P. Sikivie, Int. J. Mod. Phys. D3, Suppl (Singapore, World Scientific, 1995).

The Onset of Nonlinearity in Cosmology, Proceedings of the 15th Florida Workshop in Nonlinear Astronomy and Physics, ed. J. N. Fry, J. R. Buchler, and H. Kandrup (N. Y. Acad. Sci., New York, 2001).

Book Reviews

Book *The large-scale structure of the universe* by P. J. E. Peebles (Princeton: Princeton University Press, 1980); review by J. N. Fry, C. Hogan, and D. N. Schramm, *Nature*, 292, 179 (1981).

Book *Neutrino 81*, Proceedings of the International Conference held at Maui, Hawaii, ed. R. J. Cence, E. Ma, and A. Roberts (University of Hawaii, 1981); review by D. N. Schramm and J. N. Fry, *Science*, 216, 617 (1982).

Book *Gauge theory and the early universe*, Proceedings of the Erice May 1986 NATO Advanced Study Institute, ed. P. Galeotti and D. N. Schramm (Dordrecht; Boston: Kluwer Academic, 1988); review *American Scientist*, 78, 465 (1990).
