

Information Concerning Mid-Term Exam 2

The second mid-term exam will be held from 5:00 to 7:00 p.m. on Thursday, April 3. The exam will take place in NPB 1101. Anyone unable to take the exam at this time should contact Kevin Ingersent as soon as possible to discuss alternative arrangements.

The exam will cover all material discussed in the course concerning perturbation theory. A list of topics, cross referenced to relevant sections of the course texts, can be found on the course web pages at www.phys.ufl.edu/~kevin/teaching/6646/03spring/topics.html.

You will be allowed to consult Shankar, your lecture notes, and homework solutions (yours or mine). No other written/printed materials will be allowed.

The questions will test your ability to apply the concepts covered in the course to unfamiliar situations. Calculations will be involved, but these will be designed to be much less laborious than the ones assigned for homework.
