Review for Exam 1

Exam Details
• 30 questions multiple choice
• 3 questions from each lecture
• Closed book and notes
• No calculator
• Exams are scrambled.
• Exam is proctored and penalty for cheating is an E in the course.

Class Today
• Diagnostic exam consisting of 1 question from each lecture
• How well are you prepared for exam?
• Questions of similar difficulty to actual exam questions, but these are by no means hints as to what is on the exam.
• I am not going to collect the diagnostic exams.
Agenda

1. Do the diagnostic exam on your own with closed book and notes.
2. Sit quietly when you finish.
3. When I give you the cue, we will go through the questions one at a time. You will be able to use your notes and talk to your neighbor at this time.
4. Five of the questions will be used on the student response system.
