

Carolyn Parker was born on November 18, 1917 Gainesville FL. She was one of six children. Parker got a masters degree in physics from the Massachusetts Institute Of Technology in 1951. Carolyn Parker is known for the Dayton Project. Parker is the first African-American to gain a postgraduate degree in physics.

According to wikipedia Sadly Parker died on the 3 of March 1966.

We still remember her as a hero for saving all.

Today Our school is now named “Carolyn Beatrice Parker Elementary”. She dedicated her life and mind to protecting all African Americans and Americans.

1917-1966
